For many research projects, including any in which you are physically examined or provided care as part of the research, you will be asked to sign a consent form to participate in the project and a separate authorization form for use and possibly disclosure of your information. However, there are times when we may use your health information without an authorization, such as, when:

- A researcher is preparing a plan for a research project. For example, a researcher needs to examine patient medical records to identify patients with specific medical needs. The researcher must agree to use this information only to prepare a plan for a research study; the researcher may not use it to contact you or actually conduct the study. The researcher also must agree not to remove that information from the VHA health care facility. These activities are considered preparatory to research.
