VETERANS COMMUNITY CARE PROGRAM

1. In accordance with section 143 of the John S. McCain III, Daniel K. Akaka, and Samuel R. Johnson VA Maintaining Internal Systems and Strengthening Integrated Outside Networks Act of 2018 (MISSION Act), VA may not use the Veterans Access, Choice, and Accountability Act of 2014 to furnish care and services in the community after June 6, 2019. As a result, by direction of the Office of the Under Secretary for Health, the Veterans Health Administration (VHA) gives notice that the Veterans Choice Program ends after June 06, 2019.

2. In accordance with section 101 of the VA MISSION Act of 2018 (Public Law 115-182, as amended), VA promulgated regulations at Title 38 Code of Federal Regulations (CFR) 17.4000 through 17.4040 to implement changes to section 1703 of Title 38, United States Code (U.S.C.) These regulations establish the new Veterans Community Care Program (VCCP) beginning June 6, 2019, which will be used to furnish care and services in the community. The VCCP effectively replaces the Veterans Choice Program and VA’s traditional community care program to allow VHA to furnish care in the community to Veterans that meet the criteria of the cited regulations.

NOTE: Section 1703 of Title 38 U.S.C. and the VCCP do not affect VHA’s other independent authorities to furnish and/or pay for non-VA care for individuals who meet the criteria in those authorities for that care. VHA may continue to furnish care and services in the community for individuals, irrespective of whether the individual meets the regulatory criteria for the VCCP, for: Veterans, through 38 U.S.C. 1724 (foreign medical program), 1725 (emergency treatment of non-service connected conditions), 1725A (urgent care), and 1728 (emergency treatment of service connected conditions); and non-Veterans, through 1781 (CHAMPVA), 1786 (newborn care), 1787 (Camp Lejeune family members), title 38 U.S.C. chapter 18 programs (spina bifida and children of women Vietnam Veterans), and any other independent non-VA care authorities.

3. Care and services may only be furnished through the VCCP in accordance with 38 CFR 17.4000 through 17.4040. More information on the criteria and requirements can be found at https://www.ecfr.gov/cgi-bin/ECFR?page=browse, as well as Chapter 11 of the Community Care Guidebook, which can be accessed at https://vaww.vha.vaco.portal.va.gov/DUSHCC/DC/DO/CI/OCC_TGB/Pages/CHAPTER%2011%20MISSION%20ACT.aspx. NOTE: This is an internal VA Web site that is not available to the public. For purposes of this notice, basic Veteran eligibility for VCCP is summarized from 38 CFR 17.4010 as follows:

   a. A Veteran must be enrolled under the system of patient enrollment in 38 CFR 17.36, or otherwise meet the criteria to receive care and services notwithstanding the Veteran’s failure to enroll in 38 CFR 17.37(a)-(c); and
b. VHA has determined that such a Veteran requires care and services.

c. Additionally, at least one of the following must true:

(1) No VA facility offers the care or services required (i.e., those services that VHA simply does not provide, such as full obstetrics care);

(2) VA does not operate a full-service VA medical facility in the State in which the Veteran resides (see 38 CFR 17.4005 for the definition of “full-service VA medical facility”; these States are Alaska, Hawaii, and New Hampshire, as well as the U.S. territories of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the U.S. Virgin Islands);

(3) The Veteran qualifies under a “grandfathering” provision from the Veterans Choice Program (see 38 CFR 17.4010(a)(3) for these specific criteria);

(4) The Veteran has contacted VHA to receive care or services but VHA is not able to directly furnish such care or services in a manner that complies with the designated access standards established by the Secretary (average driving time and wait time access standards established in 38 CFR 17.4040);

(5) The Veteran and the Veteran’s referring clinician determine it is in the best medical interest of the Veteran to use VCCP, based on consideration of the factors outlined in 38 CFR 17.4010(5)(i)-(vii) (see 38 CFR 17.4040) for additional information;

(6) In accordance with 38 CFR 17.4015, VHA has determined that one of its medical service lines that would furnish the care or services the Veteran requires is not providing such care or services in a manner that complies with VA’s standards for quality (see 38 CFR 17.4015 for more information). **NOTE:** VA medical service lines that are designated as underperforming to give effect to this particular eligibility will be announced in Federal Register Notices as applicable. VHA cannot utilize this eligibility criterion unless and until such Federal Register Notices announce underperforming VA medical service lines.

4. Because VA is not able to furnish care and service under the Veterans Choice Program after June 6, 2019, all episodes of care initiated under the Veterans Choice Program must also have ended no later than June 6, 2019. Alternatively, VA could continue furnishing the care in the community after June 6, 2019, if there is a valid contractual instrument to furnish such care and if the Veteran meets eligibility conditions that become effective June 6, 2019, through VA’s regulations for the VCCP.

5. After June 6, 2019:

   a. All care and services furnished through the VCCP must be purchased with mechanisms recognized outside of the Veterans Choice Program, to include contracts (including those used to meet the requirements of 38 U.S.C. 1703(h)), sharing agreements, and Veterans Care Agreements (VCA) under 38 U.S.C. 1703A (and 38 CFR 17.4100-17.4135) when care and services can be purchased using a VCA.
NOTE: As a last resort, where care cannot be procured under an available vehicle as described above, Community Care may be purchased via an Individual Authorization. However, Individual Authorizations may not be used for care beyond September 30, 2019, pursuant to the VHA Memo entitled, “Revised Community Care Purchasing Authorities,” dated May 7, 2019.

b. VHA may not purchase community care through Veterans Choice Program provider agreements.

c. Veteran preference for a provider must be followed when a provider has an existing contractual vehicle or sharing agreement with VA, regardless of whether or not the contract is national, regional, or local. However, Veteran preference alone is not enough to authorize the use of a Veterans Care Agreement (VCA) to procure care; the elements described in paragraph 5.d. below must be present to authorize use of a VCA.

d. Pursuant to 38 C.F.R.17.4115, a VCA may be used to furnish Community Care only if such care or services are not feasibly available to a covered Veteran through a VA medical facility, contract, or sharing agreement. NOTE: Hospital care, medical services, or extended care services are not feasibly available through a VA medical facility, contract, or sharing agreement when VA determines that the medical condition of the covered individual, the travel involved, the nature of the care or services, or a combination of these factors make the use of a VA medical facility, contract, or sharing agreement impracticable or inadvisable.

NOTE: National contracts are the preferred mechanism for purchasing community care. The Patient-Centered Community Care (PC3) national contract may be used to purchase care while the Community Care Network contracts are being awarded and implemented. Additionally, with an approved waiver from the Office of Community Care, local contracts signed by a warranted contracting officer may be used. In accordance with paragraph 5.c. above, any waivers for a local contract submitted on the basis of Veteran preference must be approved; VA cannot require the Veteran to see a different provider that is under the national contract.

6. For the most current implementation guidance, see the Community Care Field Guidebook https://vawww.vha.vaco.portal.va.gov/DUSHCC/DC/DO/CI/OCC_TGB/Pages/OCC%20TGB.aspx. NOTE: This is an internal VA Web site that is not available to the public.

7. All VHA policy will be read to conform with this notice if possible or, if not possible, such policy will be superseded by this notice.

8. Questions regarding this notice should be addressed to the Community Care Office of Policy and Planning at joseph.duran2@va.gov or 303-370-1637.

9. This VHA notice will expire and be archived as of June 30, 2020.
Kameron Leigh Matthews, MD, JD, FAAFP
Deputy Under Secretary for Health
for Community Care

DISTRIBUTION: Emailed to the VHA Publications Distribution List on June 6, 2019.
